

BAIRD REWARDED BY COL. E. A. WALL

Former Rescued His Daughter
Mary and Mrs. Lindsay Rogers
And Daughter from Drowning.

GAVE HIM THOUSAND DOLLARS

The Colonel and His Wife Heard the
Screams and Saw the Rescue from
Their Hotel Window.

Long Beach, Cal., Sept. 1.—With a check for \$1,000, Col. E. A. Wall of Salt Lake City has rewarded, for bravery, Robert Baird, the night clerk at the Hotel Virginia, in rescuing his daughter Mary, 18 years old; Mrs. Lindsay Rogers and her daughter Helen, of Fresno, from the surf last Saturday. Col. Wall is a mining operator. Last Saturday his daughter accompanied by Mrs. Rogers and her daughter, were taking an early morning plunge in the surf. Owing to the heavy surf Mary Wall was drawn into a deep hole. Mrs. Rogers attempted to save the girl, but got beyond her depth. Helen Rogers went to the assistance of the others, but was unable to save them. She called for help and attracted the attention of Baird. Baird rushed into the water without hesitating to remove his clothing, and succeeded in dragging the women ashore. Col. Wall and Mrs. Wall, attracted by the screams, witnessed the rescue from the window of their room in the hotel.

BRYAN FUND CONTRIBUTION.

Helen, Mont., Sept. 2.—It has just been announced here by T. J. Walsh, who headed the Montana delegation to the national Democratic convention at Denver, that the members of the delegation have contributed \$1,500 to the Bryan campaign fund. There were six members in the delegation from this state.

STRIKE OVER WAGES.

Tracy City, Tenn., Sept. 2.—Trouble over settlement of a wage scale culminated in a strike being called at the mines of the Sevanee Coal, Coke & Land company, at Coalpoint, about seven miles from here yesterday. The strike was just recently being acquired by the Alabama Fuel company. Of the 200 union miners employed there, it is said that about 60 remained at the mine. All is reported quiet at the mine.

MRS. CHARLOTTE HITCHCOCK.

Believed Commission Found She Was
Under Influence of Opium.

New York, Sept. 2.—Members of the commission appointed by Judge Foster of the general sessions, to inquire into the sanity of Mrs. Charlotte Hitchcock, accused of killing her husband and shooting herself last November, have completed and signed their report, which will be submitted to the court today.

While none of the commissioners would reveal the nature of the report, it is understood that it will be declared that Mrs. Hitchcock was under the influence of opium at the time of the shooting, to an extent that rendered her almost unaware of what was going on, but that she is now sane.

In making up its report the commission decided to ignore entirely the sensational testimony of Dr. Ira Van Gieson, who declared he had hypnotized the woman and while she was in that condition, obtained from her a statement that her husband and not herself had done the shooting. The decision was based, it is learned, not on any desire to discredit Dr. Van Gieson's testimony or to challenge his right to speak with authority on the subject of hypnotism, but because his disclosures did not, in the commission's estimation, have any bearing on the question of Mrs. Hitchcock's sanity, which was the sole subject of inquiry.

CANDIDATE CHAFIN THANKED FOR SAVING A NEGRO'S LIFE

Seattle, Sept. 2.—At a reception given to Eugene W. Chafin, prohibition candidate for president of the United States, yesterday, a committee of negroes headed by W. C. Chafin, editor of a negro weekly, thanked him for saving the life of a negro state employee in the Springfield riots. Mr. Chafin said that he had been saved from drowning by a colored man when he was a boy, and that he had owed the race a debt ever since. In his speech, Mr. Chafin said that local opinion in country districts was driving the disorderly element of Illinois to the cities. He prophesied that if the state did not go prohibition the negro would be enough violence in the city to burn it to the ground within four years.

PHILIPPINE SCHOOLS.

Dr. J. D. Burks Says American Program in Islands is a Success.

Los Angeles, Cal., Sept. 2.—Dr. J. D. Burks, principal of the teachers' training school of Manila, N.Y., is in his city on his way east, having just arrived from the Philippine Islands, where he was sent with three other educators last February by the war department to lecture before the public school teachers of the islands. Dr. Burks returned for some time in the islands to the educational needs of the Philippines. For this, he expresses himself convinced of the success of the American program in the islands. Over 400,000 school children or one-third of all the children of school age are enrolled in the schools of the islands. More people speak English than Spanish here at the present time. The primary teachers in the schools are natives teaching in English.

A LONG CHASE.

Woman Follows Husband Across Continent to Make Him Pay Alimony.

Los Angeles, Sept. 2.—Traversing the continent in a search for her husband, to compel him to pay the alimony ordered by the New York supreme court, Mrs. Ella Morton, that city yesterday reached the end of her long journey when she served legal papers upon David F. Morton, on a small ranch near Sierra Madre. A year ago, Mrs. Morton filed suit

CASTORIA

For Infants and Children.
The Kind You Have Always Bought
Bears the
Signature of *Chas. H. Pritchard*

for separation in New York and on Feb. 11 of this year, the wife was granted a decree of separation with \$100 a month alimony for the rest of her life.

Morton made two payments, then, taking advantage of the bankruptcy law, disappeared, to be found here.

PREMIER DEAKIN SPEAKS FOR AUSTRALIAN NAVY

Melbourne, Sept. 2.—Speaking at the dinner tendered to Rear Admiral Deakin and the senior officers of the American battleship fleet at the Royal Yacht club tonight, Alfred Deakin, the premier, said:

"The appearance of the American fleet indicates that it is on no holiday cruise. Its arrival marks for us no casual adventure for the invitation was given in a spirit of deepest earnestness after sober consideration, and the concession made by the American government in sending the fleet here is perhaps the most generous maturing of recent times. One nation to another, the American battleships show the last word in the art of naval construction and the lesson to Australians is that as America was unable to take a first place in the world until the country had a first-class navy, because until then, only able to protest verbally against outside injustices and injury, so Australia cannot be content to ultimately accept defense at any other hands than its own, and should begin provision for its own navy in a modest way."

JAP SEAL POACHERS.

Six Sentenced to Be Shot Have Been
Reprieved by Russians.

Victoria, B. C., Sept. 2.—Advices from Vladivostok state that the six Japanese of the crew of the seized sailing schooner "Nile Maru," sentenced to be shot have been reprieved. Russian official advices state that the schooner was captured while in the act of raiding the Copper Islands, and that the crew were also guilty of landing at Kurinka village on Medni Island and pillaging the villagers' houses. Stocks of grain were carried away and the warehouses of the Kametchatka Commercial company were looted and coal, nets, etc., stolen.

As a result of the trouble which has arisen between Japan and Russia regarding the seizure, many Japanese papers advocate the Japanese have an interest in the preservation of the seal since the Russian rookeries came into her possession and should join with America and Great Britain to prevent the extermination of the seals.

GOMPERS OPENS CAMPAIGN FOR DEMOCRATIC TICKET

Fort Worth, Texas, Sept. 2.—Samuel Gompers, president of the American Federation of Labor, last night opened his campaign for the Democratic national ticket. He began with a defense of unionism and diverted to a discussion of strikes, saying that the strike was a weapon of labor to be used only in cases of extreme necessity.

He closed with an appeal for every man present regardless of political affiliation to vote for Bryan.

BATTLESHIP YASHIMA LOCATED.

Victoria, B. C., Sept. 2.—Advices from Japan state that the sunken battleship Yashima has been located by the steamer Saruhashi Maru, salvage vessel, sent by the naval department to search for Japanese warships lost during the war with Russia and investigations are being carried out to ascertain if the battleship can be raised. The Saruhashi Maru has also located the Russian warship Sebastopol and the approximate place where the cruiser Takasago sunk has been located. It is now searching for the battleship Hattusa.

THAW'S PRESENCE DEMORALIZES DISCIPLINE

Albany, N. Y., Sept. 1.—A protest is made in a report submitted to the state commission today by Judge George McLaughlin against the further confinement in the Danness city jail of the case of Harry K. Thaw, acquitted on the charge of murder on the ground of insanity. Mr. McLaughlin's report is on an inspection he made on Aug. 21 last. The report says among other things that the presence of Thaw in the jail "demoralizes the discipline of the institution."

CALL FOR MEETING OF DEMOCRATIC COMMITTEE

Chicago, Sept. 1.—Secy. Woodson of the Democratic national committee today sent notices to all members of the national committee requesting their presence at a meeting to be held here on Sept. 6. Plans for the campaign will be discussed.

HITCHCOCK FACES PROBLEM IN ILLINOIS

Chicago, Sept. 1.—Chairman Frank H. Hitchcock of the Republican national committee has found a political problem in Illinois that is causing him about as much worry as the Hughes situation in New York state. The recent primaries engendered much bitterness between the Dan and Yates factions over the government of the state and the party responsible for the success or failure of the national ticket have found it necessary to extend their attention toward the formation of a harmony program. If it is possible to do so these state leaders will bring Hitchcock into the case as an arbitrator.

BRYAN BRINGS SPEAKING TOUR TO A CLOSE

Crookston, Minn., Sept. 1.—William J. Bryan brought his speaking tour to a close tonight by a brief address at this place from a platform close by his car. A large crowd assembled at the depot to greet him upon his arrival shortly after 10 o'clock. He urged his hearers to support the Democratic ticket, and told what the conditions were favorable to the party success. About the train from Grand Forks he announced the subject of his Rochester, N. J., speech would be "Mr. Taft and His Country." He explained that he chose this theme because Mr. Taft had tried to arouse the fears of the voters against the Democratic party.

HELD FOR WIFE MURDER.

Bishop, Cal., Sept. 1.—P. N. Snyder has been held for trial in the superior court on the charge of murdering his wife on Aug. 2 in the Sierra Nevada mountains, about 20 miles from this place. George Averthos, who was jointly charged with Snyder, was discharged for lack of evidence. Committing Magistrate Uhlmeyer granted the request of Snyder's counsel for bail, but fixed the amount at \$20,000. The evidence against Snyder was wholly circumstantial but suspicion was directed toward him by discrepancies in his story of the killing of his wife and proved facts regarding the crime. He is apparently near to a nervous collapse.

FOUGHT FIRE ALL NIGHT

New Believed That Fire That Threatened
Calaveras Big Trees is
Under Control.

Senora, Cal., Sept. 2.—Telephone information from Big Trees hotel this morning at 10:30 o'clock, reports the forest fire broke out yesterday afternoon, and threatened the Big Trees grove, is believed to be under control. All the forest rangers and settlers available fought the fire all night and succeeded in keeping it from spreading. It reached the north grove, but according to reliable information here, did not get into the grove where are located the mammoth specimens of the sequoia gigantea trees. One of the trees has it that the "Mother of the Forest," a giant dead tree, was burned, but this is not confirmed here, and is not believed as the course of the fire would not endanger that particular part of the grove.

It is 50 miles from Senora to the grove. Several men from here have gone to assist the rangers in subduing the flames.

MOTHER OF THE FOREST.
Stockton, Cal., Sept. 2.—A telephone message received here this morning from Murphy's, Calaveras county, is to the effect that the forest fire has gotten into the Calaveras big tree grove, and known as "The Mother of the Forest," a monster sequoia, 327 feet high and 78 feet in circumference, has been burning all night. No other trees have caught fire thus far, but the grove is in danger. The grove is pretty well surrounded by fire and flames are sweeping in an ever-narrowing circle from the south and west.

Help is badly needed, as there are not more than 100 men fighting the flames by back firing and other means. More men have been sent for and will be rushed in as rapidly as possible. Last night the Big Trees hotel had a narrow escape and was only saved after the hardest kind of work.

The "Mother of the Forest" is a dead tree. It is burning fiercely and endangering the trees in the vicinity. None of the living trees is burning.

The fire is raging between the Calaveras grove and Gardner's, in the San Antonio ridge, menacing Gardner's. There is no wind this morning, but it is customary for the wind to blow briskly about noon and the forest is feared, though the fire fighters are working hard and there are hopes that the damp condition of the grove will check the flames.

The fire has made some very wide jumps, due to the heavy wind blowing, burning back from the trees on the ridges across to other ridges. In several places the tops of trees are burning, while there is no fire in the underbrush.

TO OBSERVE HALLEY'S COMET.

Chicago, Sept. 2.—Astronomers at the Yerkes observatory in Williams Bay, Wis., began preparations last night to record the first observations of the re-appearance of Halley's comet.

This comet appears once in 76 years, and, according to the figures, it ought to come in sight some time during September or October, but it may have been perturbed in its course.

"There is a chance," said Director Frost, of the observatory, "that we may pick it up this fall. It will be faint at first, but brilliant later. It has been under observation for the last century, and it is an erratic comet, and it may not be seen at all this year. We are preparing to photograph it. A committee of astronomers was appointed at Put-in-Bay last month to consider plans for observing the comet continuously during its two years' presence near the earth."

FOR THE POOR.

Mrs. Russell Sage Has Given \$10,000.
000 for Their Relief.

New York, Sept. 2.—Backed by the millions of the Sage foundation, to which Mrs. Russell Sage has already turned over \$10,000,000 for alleviating the economic conditions of the poor, trustees of the fund are engaged in an investigation which may result in an extended plan for providing life insurance at or below cost to those who recognize the beneficency of such provisions against destitution, but who may not be able to afford the luxury of life insurance at the rates charged by the big companies.

Since the middle of last June Dr. Lee Franklin, who is well known in charitable organization work, has been in Europe as the agent of the Sage foundation, studying the practical operation of governmental life insurance as practiced by the German and other governments. Dr. Franklin's associate in this work is Miles M. Dawson, actuarial expert of the Armstrong legislative committee, which with Governor Hughes as its counsel, brought out the extraordinary revelations of the investigations of 1905, and laid the foundation for the reforms that have since revolutionized the business of life insurance in this state.

CORONER'S PHYSICIAN.

Mother Brings Suit for Autopsy and
Mutilation of Her Son's Body.

New York, Sept. 2.—Denying the right of a coroner's physician to perform an autopsy when it is not necessary to determine the cause of death, and denying the right of the physician to remove the organs of a body even though that action may add to the medical knowledge of the world, Mrs. Hassard has brought action against Dr. Timothy D. Lehane for \$25,000 damages.

Mrs. Hassard's son, Francis, 29 years old, died on April 2, 1907, as a result of an injury sustained by falling from a horse.

NIGHT NURSE

Kept in Perfect Trim by Right Food

Nursing the sick is often very burdensome to the nurse. Night nursing is liable to be even more exhausting from the fact that the demands of the system for sleep are more urgent during the night hours.

A Va. lady, called on to act as night nurse in the family, found the greatest support from the use of Grape-Nuts food. She says:

"Our acquaintance with Grape-Nuts began eight years ago. We bought the first package sold in this place, and after a time we began to feel that we were becoming converts to its striking food value."

"I used Grape-Nuts first to sustain me when doing night nursing for a member of the family. I ate a spoonful at a time, and by slowly chewing it I was able to keep awake and felt no fatigue."

"Soon I grew to like Grape-Nuts very much and after our patient recovered I was surprised to find that I was not at all 'worn out' on account of broken rest. My nerves were strong and steady and my digestion fine. This was the more so because I had always suffered with weak nerves and indigestion. My experience was so satisfactory that other members of the family took up Grape-Nuts with like results."

from a coach. Mrs. Hassard alleges in her complaint that immediately after that, without warrant in law and without her knowledge or permission, Dr. Lehane performed an autopsy and did not return to the body the heart and spleen after he removed them. It is said the spleen is of extraordinary size, weighing more than 15 pounds and that it has been viewed by many physicians. Mrs. Hassard's daughter asserts that she saw these organs in Dr. Lehane's home and he told her that he had retained them in the interests of medical science.

When Dr. Lehane received the complaint, he took it to the corporation counsel, who will defend the case. In the answer served on Mrs. Hassard's counsel, Dr. Lehane makes a general denial of the charges.

INDEPENDENT DOCTORS.

Demand That Competence Rather
Than License Shall Dominate.

Chicago, Sept. 2.—"Medical freedom and a demand that competence rather than license shall dominate," was the declaration of principles adopted by the association of Independent Doctors at its national convention held last night.

The organization, it was stated by the secretary, Dr. Charles H. McCormick, has been informed of the tenets of "the medical trust."

Chicago was selected as the meeting place for 1909, and the following officers elected:

President—Dr. F. B. Rehman, Youngtown, O.
Vice President—Dr. F. S. Hayes, San Antonio, Texas.
Secretary-Treasurer—Dr. Charles McCormick, Chicago.

INFECTED WITH RABIES.

Chicago, Sept. 2.—Dr. A. Lagorio, of the Pasteur Institute, has been taking treatment for an infection of rabies, obtained by a scratch on his hand in his laboratory, was declared out of danger last night by members of his family and his associate physicians. Dr. Lagorio was infected 12 days ago.
