

## LOCAL AND OTHER MATTERS.

Mrs. Augusta Joyce Crocheron suggests to the commission that the ship Brooklyn, with its colony of Mormon Pioneers who landed at Yerba Buena (now San Francisco), July 31, 1846, be featured in the Jubilee parades. Mrs. Crocheron was one of the colony, being an infant in arms at the time of the landing. She now resides at Erds, Tooele county.

Funeral services were held at Sugar House today over the remains of the 14-month-old boy of John Dearlog, which died Monday evening from the effects of drinking some concentrated lye on Saturday last. The infant was not Mr. and Mrs. Dearlog's own son, but was left on their doorstep when not more than a week old, and was taken and cared for as their own. Dr. Richards did all in his power to save the child's life but it was all in vain.

The Tooele Stake quarterly conference to be held at Grantsville Saturday and Sunday, July 24th and 25th, will be postponed one week, and will be held on Saturday, July 31st, and Sunday, August 1st inst.

HUGH S. GOWANS,  
CHAS. L. ANDERSON,  
GEO. F. RICHARDS,  
Stake Presidency.

TOOELE CITY, July 2nd, 1897.

John H. Schofield, editor of the Butchers and Packers magazine of St. Louis, is in Salt Lake with a view of effecting an organization of the knights of the cleaver and block. Mr. Schofield is general organizer of the National Association of the United States, and is accompanied by Marie E. Durten, a sister and Miss Mary E. Alter, also of St. Louis. Mr. Schofield just completed an organization at Denver, and from here he will go to San Francisco, returning home via Portland and the Great Northern.

Ogden Standard: John Taylor is dead, Arthur Larsen is crippled for life and several other boys have received painful injuries as the result of a casual happening Sunday afternoon. The fatalities were caused by the premature explosion of a section of iron pipe which the boys were loading. The dead boy is 15 years old and a son of James Taylor, a house painter, living in Glasgow addition. Arthur Larsen, aged 10, had his left arm blown off by the same explosion. He is a son of Larsen, the shoemaker whose shop is near the postoffice, but who resides in Glasgow addition.

The following statement is given out by General Passenger Agent Wadleigh of the Rio Grande Western: Between morning of July 1st and midnight July 5th we handled and delivered to the Southern Pacific company at Ogden between thirteen and fourteen thousand Christian E. Denver passengers. We have eleven trains on our lines and in eight at this hour which will swell the total to exceed fifteen thousand. During this period we have not had a wheel off the track and our trains have moved over our line with not to exceed more than two or three hours delay in any

instance. We claim to have established the world's single track record.

Morgan Mirror: One of the saddest accidents of the season happened near Morgan last Wednesday. Two little boys, George Lowe and Richard Waldron, were hunting squirrels with a 22-caliber rifle. The Waldron boy, in lowering the hammer, let it slip and the gun was discharged. The bullet struck the Lowe boy in the side and entered his bowels. His cries soon attracted the attention of Walter and Joseph Waldron, who brought him to this city. Dr. Rich was summoned and did all in his power to save the boy's life, but he passed away at 3 o'clock the next morning. The boy who did the shooting is nearly distracted over the sad but purely accidental shooting.

MESA, Ariz., June 28th, 1897.—The quarterly conference of the Maricopa Stake of Zion was held in the new tabernacle here, Sunday and Monday June 20 and 21.

Considering that we are in the midst of harvesting and everybody is very busy, the meetings were fairly well attended, and the reports given showed the people generally to be enjoying a good degree of both spiritual and physical health. In the absence of any of the Apostles, the sermon delivered by Elmer Lyman at the last conference of Utah Stake was read, at the instructions therein were considered to be adapted to us here.

The weather in this sunny land thus far has been unusually pleasant, and both temporal and spiritual prospects are good. BEN F. LEBARON,

Clerk of Stake.

Eliza G. Lyon, wife of Joseph D. Lyon of the Twelfth ward, this city, passed away just before noon on Wednesday.

She was the eldest daughter of George and Elizabeth Goddard, and was born in Leicester, England, and came to this country in 1852 with her parents when ten years old. She was married on the 5th of April, 1864, and has had nine children, two sons and seven daughters, all living; three of whom are married. She has had nine grandchildren, two having died and seven still living.

During the past eight years she has taken an active part in the Relief Society of the ward, acting in the capacity of treasurer and teacher. On Tuesday night she was present at the farewell missionary meeting held in the Twelfth ward chapel, and retired to rest in her usual health. About midnight she was seized with a second attack of paralysis and lay in an unconscious condition until near 12 o'clock on Wednesday, when she breathed her last. She was a dutiful and loving daughter, an affectionate wife and an indulgent mother. She leaves many friends and acquaintances, by whom she was universally respected. Blessed are the dead that die in the Lord. She has gone to her rest.

IDAHO FALLS, Idaho, June 29, 1897.—The week ending Monday, June 28th, was generally cloudy during the

early part, followed by cool and clear weather. The rainfall was unusually heavy in the northern section and about the average in the western, while in the eastern little or no rainfall was reported. A hailstorm in Washington county on the 21st did considerable damage to crops, especially fruit. The nights have been rather cool, and very light frosts occurred in a few places but no damage resulted.

All irrigated crops are in good condition, though their growth has been slightly retarded by cool weather. Wheat and oats are in fair condition but in parts of the state light crops are expected. Potatoes and garden truck are doing well; in some localities potatoes, turnips, beans and peas are ready for use. All fruits are in good condition. Alfalfa is being cut in all sections; in a few places where the crops are not fully matured cutting is expected to begin this week. Range grass is reported in excellent condition, though in the extreme southern section it is drying rapidly. Stock is doing well.

D. P. McCALLUM,

Section Director, Idaho Falls, Idaho.

PAYSON, July 5, 1897.

The grandest procession made here for many years was held today. A large number of visitors were present from the surrounding country, Eureka, Tintic and elsewhere.

The Primary Industrial class made a fine exhibit on wheels, also the merchants, Douglass Brothers' dry goods, Hush Bros' hardware, etc. The floats, one on a vehicle with six wheels containing forty-five girls ranging from ten to twelve years, representing forty-five states, Utah in the center, appeared handsome. Other floats contained the Goddess of Liberty, Uncle Sam and attendants, variety troupe, etc.

The music was of a high order, from the brass band drum corps of Benjamin and Payson.

The points of interest in the proceedings of the celebration were an address of welcome, recitation, reading of Declaration of Independence, recitation, oration, stump speech, topics on the history of America, the patriots and travels, love of liberty and of native land, etc.

There were sports and pleasure in the afternoon and a big time in the ball room at night. CAMBRAN.

RICHFIELD, Utah, July 6.—Details have just been received here of a killing at Marysvale yesterday, during the celebration, by Harry Mills, a relative of the late W. H. Lyons of Salt Lake. He was in a saloon between 2 and 3 o'clock in the afternoon, quarreling with a man named Peterson, when Jack Perdue or Perju took up the quarrel in Peterson's behalf.

Blows followed and Mills was worsted, so he ran across the street and got a 38-caliber pistol and came back, Sheriff Stocks trying to prevent him from doing harm. Mrs. Mills followed, but her husband turned a deaf ear to her entreaties.

As he entered Perdue kicked at him and he shot at Perdue but missed his head. He shot again and struck Ben Ried, an aged bystander. By this time several men had hold of the two but Mills got his and loose and fired hitting Perdue in the right ribs. The bullet
