DEATH FROM STRANGULATION.

Woody Hodgson Expires While Eating a Beefsteak in Chinese Restaurant.

TWO DISASTROUS RUNAWAYS.

Thos. Cunningham Jr. and Geo. Miller Seriously Hurt—Buggy Smashed And Young Ladies Hurt.

Woody Hodgson, a bachelor, died very suddenly Saturday evening in the Silver Parlor restaurant on Twenty-fifth street, from strangulation. Hodgson entered the restaurant at about 7:30 and called for a beefsteak, which was brought to the table. He appeared to be well and started to eat the meal, when he was observed by one of the Chinese proprietors to be in distress. They went to his assistance, but he fell to the floor before they reached his side. The police were telephoned for and Chief Browning and a number of the officers responded and summoned Dr. Fernald, who later pronounced that the man had expired. The doctor stated that Hodgson had strangled to death, as in his throat was a piece of the beefsteak, and his heart beat weak it resulted in sudden death.

The remains were removed to Larkin & Son's undertaking parlors, where they were embalmed. Up to the present time no trace of his relatives has been found, but the body will be held for some time in an endeavor to locate his relatives.

Hodgson had been employed for some time on the cut-off, and it was reported that he had worked for Corey Brothers and Aiden and for other construction companies. Something over \$200 was found in his pocket. Hodgson was a young man, about 25 years of age, although apparently very well preserved, looking very much younger. It is said that he belongs to the Grand Army of the Republic.

TWO SERIOUS RUNAWAYS.
Thomas Cunningham, Jr., received serious injuries Saturday evening in a runaway, and will be kept for some time as a result of the same. The young man was employed as delivery man for Edgar Jones, and was returning to the store. When the fire started on Grant avenue the team became unmanageable and dashed along the street. When near the corner of Twenty-fifth street, the wagon collided with a telephone pole, overturning the wagon, throwing Mr. Cunningham and a companion out with great force. Cunningham received serious injuries to his back, but his companion escaped with slight bruises. The team with the front wheels turned down Electric avenue, colliding with one of the posts of Smith's lodging house, tearing it down, and continuing on down the city street, running over a Greek laborer, knocking him down, bruising him considerably. Mr. Cunningham was placed in a cab and sent to his home on Barlow's lane, where he is receiving medical attention.

ANOTHER ACCIDENT.
Miss Garner and a lady friend had a narrow escape from injury Saturday evening near the corner of Ogden canyon. The young ladies had hired a buggy and horse from Nelson & Fell to take a drive. At the Hermitage they met a wagon which they tried to pass, but could not get past. The buggy with the front wheel, crushing the wheel, letting the front part of the buggy fall to one side. The young ladies were thrown out, one of them receiving serious injury, and both were badly bruised and frightened.

STATE DENTISTS' MEETING.

The semi-annual meeting of the Utah State Dental association was held here Saturday afternoon and evening. Dr. Dalrymple of Ogden presided at the meeting and many interesting clinics were held. The association is composed of present and six new members were admitted to the association. Among the clinics held was one on "Porcelain Inlays," by Dr. Will Ellerbe of Salt Lake. "Porcelain Crowns," by Dr. J. H. States of Salt Lake. "Swedging Device for Metal Plates," by M. C. McClintock. "Test of Pacings," by Dr. Terrell, and "Root filling," by Dr. Dalrymple. At the evening banquet, which was tendered to the visiting members by the local members at the Reed hotel, they then repaired to the Hotel Hotel, where a smoker and the evening session was held. Dr. George Ellerbe read an interesting paper entitled "Fluoride and Their Treatment," which was discussed by Dr. Tallafiero. Dr. Fred W. McKin delivered a paper on "Dietary Analyses," which was discussed by Dr. Barber and others.

Among the interesting characters at the session was Dr. Dunford of Salt Lake City. The doctor is the oldest member of the association, and incidentally the oldest in point of practice in the state. He was called upon for an address and received many instances of the early days when he and another dentist were the only two practitioners in the state.

BILK WORSTED BY A WOMAN.

A man giving his name as John Wheeler was arrested yesterday afternoon by Officer Vance and may be charged with obtaining money under false pretense. Wheeler came to Ogden several days ago under the pretense that he was an employee of the Singer Sewing Machine company sent here especially for the purpose of placing their machines in good order. He would force his way into a house where they had a machine whether wanted or not, and would declare something was wrong with the machine even if they were all right. After he would finish the repairs he would demand from 50 cents to \$1 pay. Yesterday Wheeler visited Wilson lane and

forced himself into several houses. At the home of Mrs. Dels he was refused admittance but forced himself into the house, terribly frightening the lady. He next called at the home of Mrs. Smyth who was not so easily frightened. In his usual bold way he got into the house laid his hat on the table and started on the machine. Mrs. Smyth went into the other room and got a pistol then returned to the sewing room, pointed it at Wheeler and told him to get out, which he did. Mrs. Smyth had been notified of Wheeler's actions and Officer Vance responded placing him under arrest.

LOGAN.

Exploiting Oil Fields—Caché Valley Implement and Produce Co.
Special Correspondence.
Logan, Cache Co., Nov. 5.—The Logan city council met in regular session Monday evening. President Robinson occupying the chair.
Mayor Hansen made a report concerning the purchase of wire and other supplies for the city's street lighting.
W. H. Hurst asked for a liquor license for the term of three months. On motion of Councilman Benson, the matter was referred to a special committee comprising Councilmen Quayle, Benson and Nelson.
Councilman Quayle was granted the privilege of laying a pipe from the water main to his residence along Second West street.

CITY COUNCIL SESSION.

The special committee on paving reported that they had completed the paving on three sides of the block south of the Tabernacle square and had paved two crossings on Main street, but it believed it was best to postpone any further paving until spring.
After making heavy appropriations from the general, paving and electric plant funds, the council adjourned.
Aaron S. Farr, Sr., is still very ill at the residence of Hon. Moses Thatcher.

EXPLOITING OIL FIELDS.

Arrangements are under way looking to the opening up of another important oil field in the Cache Valley. W. H. Lewis was in town from Lewiston Thursday and reports that boring for oil and other products of the lower soils will shortly begin in that region.
For some years past, it has been known that gas existed in the low lands of this valley. At various times in the past few years attention has been given to this with the result that ignitable gas flowed forth in large volume. John Bingham of Trenton made such a discovery some years ago and piped the gas to his home where he has since used it for heating and cooking purposes. During the past few days Mr. McIntosh, representing Mr. C. K. Rowland, of the Cache Valley Oil and Gas Company, and eastern capitalists, has been in Lewiston and Trenton securing options on land. The company agrees to furnish all machinery and develop the property and to give the landowner 10 per cent of the gross proceeds if any valuable commodities are discovered.
Between 6,000 and 7,000 acres have been obtained in the low lands of the Cache Valley, Trenton, Benson and Cache Junction.
Mr. McIntosh states that it is the intention of the company to proceed to drill a series of wells. Thirteen inch wells will be bored in various localities with a view of ascertaining whether or not oil, gas, asphaltum, or other valuable products exist here in marketable quantities.

IMPLEMENT AND PRODUCE CO.

Several prominent men from different parts of the county met in the office of the Cache Valley Implement and Produce Co. Monday last, and took definite action toward incorporating said firm. About \$5,000 was subscribed after investigating the affairs of the firm and its prospects. The company was organized to change the name and pursue to "Cache Valley Implement and Produce Company," and open the stock subscription books to the farmers and other citizens of this valley until next Monday, Nov. 9, at 2 p. m., when final action in the matter of incorporation, election of officers, and the like, will be taken at a meeting called for that purpose.
This is a fine opening for the farmers to get into a position to share in the profits of their implements and produce and retain the money in the county.
Andrew Anderson, E. R. Mills, Jr., J. C. Thorsen, L. R. Martineau, P. W. Bingham, W. F. Dorley and Joseph Watkins, have been elected directors. Andrew Munk was elected a director, but declined on account of a press of other business and Mr. Watkins was named in his stead.

LEHI.

RECORD RUN OF SUGAR MILL.

Cut 1,277 Tons of Beets in One Day—Fine Season for Beet Harvesting.
Special Correspondence.
Lehi, Utah, Nov. 9.—For the 24 hours ending yesterday morning the sugar factory here and around the city cut 1,277 tons of beets. This is a record run and is the greatest amount of beets ever cut by the factory in 24 hours. Mr. Gardner, the superintendent of the factory, says that the beet harvest is running very smoothly and he expects to be through cutting beets by Dec. 20.
Up to date 85,000 tons of beets have been received and it is estimated that about 4,000 tons more will be delivered. In the history of the company the farmers have never had such lovely weather for getting their beets in. They have this season and they are very much gratified at the same as they have delivered their beets much earlier this season than ever before. At the Lehi yards there are 15,000 tons of beets piled up in the sheds and on the ground ready to be cut, making an imposing sight.
Twenty thousand dollars will be paid to the farmers to be cut and many happy faces are seen in consequence.
Friday night last J. V. Russell, the 14-year-old daughter of Mr. Lot Russell, Jr., died of heart failure.

PARK CITY.

TWO MINERS KILLED.

Caught in Cave-In in Daly-West—Another Gun Accident.
Park City, Summit Co., Nov. 8.—At noon today another shocking accident occurred at the Daly-West mine. A cave-in on the west level caused the instant death of Arthur Powers and John McNeil. The men were caught without warning while drilling in the face of the Daly-West mine.
Both men were married and had big families. Powers was 57 years old and is a member in good standing of the A. O. U. W. and leaves a \$2,000 policy. He was married to a woman and two daughters. The boys are working in the Daly-West. McNeil's body will be taken to Bountiful for burial. The family of McNeil is especially unfortunate, as about six months ago a child died; then Mrs. McNeil died about two months ago, today being the last of the series of their misfortunes.
"DIDN'T KNOW IT WAS LOADED."
Another "didn't know it was loaded" gun accident occurred this afternoon when a number of boys were playing with a 22-caliber Remington-Union gun, as usual, while in the hands of Robert Birnie, aged 13, inflicting a dangerous wound on Henry Knick, aged 9, the bullet striking the chest in the lower part of the ribs and lodging in the chest. The boy will probably recover. This is the third accidental shooting here within a year. It is time again to sound the alarm as to the arming of the children than playing with firearms.

COALVILLE.

Republicans Take All But Recorder'ship—Widows' Day—Summit County Affairs.
Special Correspondence.
Coalville, Summit Co., Nov. 5.—Widows' day was observed in every ward in the stake last Saturday. Two years ago, Nov. 1 was set apart special day for the entertaining of all the widows and missionaries wives. On this day the widows are provided with food and coal, the Deacons go around and cheer up the widows and fix up the fences in good shape for the winter. In the afternoon or evening they all meet together in some public building and are entertained with a nice program and lunch.
The city election passed off very quietly. Both parties worked hard for the success of their tickets, but there was no friction, all worked good-naturedly together. The Republicans carried their tickets with the exception of the recorder. The following officers will control the city the ensuing two years:
Mayor, Frank Croft; recorder, Frank Marshall; treasurer, Alexander Wright; marshal, Walter Caldwell; justice of the peace, William H. Smith; councilmen (for four years) John H. Salmon, (for two years) Robert W. Walker, W. L. Clark, J. W. Huffman, G. G. Redden.

LAGRANDE, ORE.

SPRISING BEET HARVEST.

New Stake Tabernacle—Care of Missionaries—Immense Apple Crop.
Special Correspondence.
La Grande, Oregon, Nov. 2.—We have just closed our beet harvest and the sugar factory will finish its run in a few days. The beet harvest has surprised all growers as well as the field and factory men in this, that a much better yield has been gathered than at any time in the past. It is generally conceded that if the beets had time to properly mature they would have been exceptionally heavy, but the cold, backward spring made the beets late and they grew very slowly for some time. However, the general feeling is much more in favor of sugar beet culture and it is thought that the beet harvest of this year will be a record. The stock books of said company will be closed on Monday, Nov. 12, and no more stock transferred on said books until after the election.

NEW STAKE HOUSE.

At the stake Priesthood meeting of the Union stake held at La Grande last Saturday, a committee consisting of Presidents P. S. Bramwell, C. W. Nibley and Bishop George H. Smith, were appointed to take immediate steps to erect a stake house. It is promised the building will be completed in a year's time. The brethren appointed are all noted for their energy and we feel safe in saying we will hold our stake conference in the new tabernacle in one year from now. An excellent feeling was manifest, two men donated large sums and all expressed themselves as being willing to be drawn on at sight and the committee has full power to get the money and erect the building.

CARE OF MISSIONARIES.

The Union stake has taken important steps looking to the proper care of the missionaries. President Bramwell said that the stake shall have proper care as well as their families during their absence. In this our president finds hearty response, as the whole body of Priesthood was up to the work of the stake and we are safe in saying our missionaries will be well looked after.

IMMENSE APPLE CROP.

The apple crop is immense. Bishop Carbone will sell about 8,000 boxes at about 75 cents per box. At this price the orchards are very profitable. Our people have secured the title to many very valuable orchards, which promise now to make good money. The quality of the Oregon apple is making a good record and the demand is constantly increasing. That the quality is unsurpassed there is no question. We have known of apples two years old and in a fairly good condition then. It is considered that many varieties will keep for a year or more from time of harvest until harvest next fall. In the east, New York and elsewhere the Oregon apple is fast becoming a favorite, which insures a constant market and good prices.

The members of our stake are increasing very rapidly. It is surprising to visit several wards and to note the new faces. Very good class of people is flocking in and in time we expect to have a very large stake. We already have a very good one.
The son of President and Emily Bramwell, have taken their departure for Great Britain on a mission. In each ward there was a good send-off and considerable money collected and the brethren left full of blessings in their hearts.
