THE arrival in the household of Mr. C. R. Howe of a bouncing baby boy caused the utmost joy in that domicile today. Mother and child doing well. The father, judging from the pleasant smile on his paternal face, is one of the happiest men at present, dwelling on this miniature sphere.

LOCAL NEWS.

NOTICE to Sunday Schools—Those schools outside the city who contemplate taking part in the singing exercises of the forthcoming Jubilee are requested to send a statement of the number of scholars enrolled in their school, to J. W. HIRSH, Principal, Secretary, Salt Lake City State, S. S.

THIRD District Court.—Proceedings today: The People vs. J. B. Dwyer, dismissed on motion of prosecution.

Philip Schuchart vs. Margaret S. Ellis, decree of default, foreclosure and sale of property.

F. W. Jennings vs. John Hill, demurrer second amended complaint against F. Hillman for defendant and to transfer Young for plaintiff.

Grasshoppers.—A gentleman who came down from South Mountain, Davis County, today, informs us that grasshoppers have swarmed in myriads in that locality, and are attacking the fields of grain voraciously, and that some farms are threatened for corn and other crops. The destructive ravages of this pest in past years in Utah are still well remembered, but as they have not appeared in any considerable numbers except in this small section, and at this late season, no great damage may be apprehended this year, at least.

FIRE.—About 6 o'clock this morning, a fire was observed in the roof of a row of lumber-treatment houses on the Blithe property, corner of Second South and First East Streets. The fire department were promptly on hand, and succeeded in extinguishing the flames before much damage was done. The loss will amount to about \$300. The fire is supposed to have originated either from a defective flue, or from some rubbish which had been thrown by some children from a second-story window on the roof of a one-story building adjoining.

That Stabbing Affair.—We have received a communication from Coveville justifying Allen, the man accused of stabbing Coach, some time since in Richmond, and casting discredit upon the account furnished by a Richmond correspondent at the time of the occurrence—who, by the way, since explained that he had no intention of casting any reflection upon Mr. Allen's character by what he first wrote. We prefer not to open our columns to a controversy so long since that all public interest in it has died out, and therefore refrain from publishing the letter now received.

PROVO ITEMS.

The grand opening of the Asylum is looked forward to with much anticipation here in quiet Provo. The date of opening is, I understand, fixed for the 10th of July. The opening services of the new Theatre will take place the same date. The place selected is "The Streets of New York." Very ancient, isn't it? But we hope soon to see our home come into a more something more modern and more classical. Our principal comedian here would, with very little effort, appear better in tragedy than comedy, and we are proud of the ability held within the circle of our dramatic band, but we eagerly look for a higher, better class of plays than is often presented in this city.

The weather is extremely sultry. No preparations are being made for a celebration on the Fourth. It is hoped, however, we will have a roasting celebration of our Pioneer Day.

A rumor has reached here that Mr. B. Young may possibly bring his pupils down, and give us a grand concert in the Theatre. This would be a delightful treat, and Provo will prove, I venture to say, that she can appreciate and thoroughly enjoy an occasion to the utmost. We are a quiet people, but essentially a musical one, from our choir leader, down to the youngest child.

Fronts are said to be very plentiful in the river last night. It is hoped, however, we will have a roasting celebration of our Pioneer Day.

We were pleased to greet Dr. M. H. Hardy once more. He is a very valuable physician in him. A skilful physician, who is a staunch Latter-day Saint, is a real ally to the community.

Crops are looking very well. The ground, wet as it is, did his best after, yesterday the sun.

Business is quite brisk, considering the hot time.

TERRITORIAL ITEMS.

CULLED FROM LATEST EXCHANGES.

A fire occurred in Logan last Thursday, which resulted in the destruction of a barn owned by Mr. Blanchard and situated on Washington Street, between Second and Third Streets. The total loss is estimated at \$2,000.

The body of a man named Wilson was found near Oak Creek, Arizona, a few days since. Wilson went out to hunt bears, and evidently found one that was too much for him. His body, when found, was full of scratches, while his head and face were terribly mangled. His dog, which accompanied him, kept watch over the remains of his dead master until removed by friends.

Mr. Job Pingree's little daughter, "Daisy," who was so severely burned on the 22d of last November, is still in a very bad condition, and from that time to the present, she has only sat up twice. It will take a long time yet for her wounds to heal, and when they do there is every probability of her losing the use of both her elbow joints. She has to be watched incessantly, and for a long time was only kept alive by fresh milk.

Yesterday, at Ogden, Jas. H. Nelson and Job Pingree were arraigned before Judge Powers, on the charge of unlawful cohabitation with their wives, and entered a plea of not guilty. Merrell Brown, who has been indicted for assault, also entered the same plea; the prosecuting witness in this case is George Marth, the despicable "apothecary" to whom Mr. Brown administered a sound thrashing. The trial is set for to-morrow.

In the First District Court, yesterday, the case of the United States vs. James Taylor, indicted for unlawful cohabitation with his wife, was called, and the District Attorney asked for a continuance for the reason that two important witnesses, Annie Dyer and Annie Bailey, the alleged wives of the defendant, could not be found. The defense objected, but the continuance was granted. One of the witnesses, Annie Dyer, had been placed under bonds to appear at the trial; the District Attorney moved for a forfeiture, and the motion was taken under advisement.

A short time since Messrs. George Frost and R. L. Short, who have been residing near Boise, Idaho, with their families, went to Idaho Creek to spend a few days in camp and hunt. At about three o'clock on last Thursday afternoon, Frost and Short left camp to kill some birds. A heavy cloud was hanging overhead at the time, with frightful electric flashes, but no rain falling. They had proceeded but a short distance—Frost fifty yards in advance with gun resting across the saddle to front—when Short, who was completely paralyzed by a blinding flash and fearful explosion. The shock dazed him for several moments. Recovering, he was surprised to discover that his companion and horse had disappeared. Rushing rapidly to the spot where he had last seen them, he noticed a light, bluish smoke ascending, and then his eyes rested upon horse and rider, both lying dead upon the ground. The fatal bolt had struck Mr. Frost on the head, almost rendering into pulp his whole body. His clothing was ignited, the burning of which created the smoke observed by Mr. Short. His whistlers were also singing on one side.

The deceased was about 30 years of age, and bore an excellent character. He leaves a wife, to whom he was married last November.

Curious Wells.—During the past week several parties in the Fifth and Sixth Wards have been engaged in driving pipes in the hope of securing flowing wells of good drinking water. One of these, Mr. Erastus Wetzel, living on Sixth South Street, obtained a small stream of bluish-colored water at a depth of sixty-five feet. There was no perceptible smell of oil or gas in the pipe, but when a light was placed within a few inches of the water, a bright flame of the water would ignite and burn with a steady flame four or five inches high. On Sunday night, however, this stream of water ceased its flow.

Mr. Arnold Glaque, whose place is a few rods east of Mr. Wetzel's, on the same street, also struck water at the same depth, the stream being a strong one, and the water of a dull reddish color, having a rather unpleasant taste. When a light was applied to the water, a bright flame, but only for an instant. During Sunday night the water stopped, and Mr. Glaque had the pipe driven three feet farther down, and succeeded in extinguishing the flames before much damage was done. The loss will amount to about \$300. The fire is supposed to have originated either from a defective flue, or from some rubbish which had been thrown by some children from a second-story window on the roof of a one-story building adjoining.

A rumor has reached here that Mr. B. Young may possibly bring his pupils down, and give us a grand concert in the Theatre. This would be a delightful treat, and Provo will prove, I venture to say, that she can appreciate and thoroughly enjoy an occasion to the utmost. We are a quiet people, but essentially a musical one, from our choir leader, down to the youngest child.

Fronts are said to be very plentiful in the river last night. It is hoped, however, we will have a roasting celebration of our Pioneer Day.

We were pleased to greet Dr. M. H. Hardy once more. He is a very valuable physician in him. A skilful physician, who is a staunch Latter-day Saint, is a real ally to the community.

DESTRUCTIVE FIRE IN PARIS.

PARIS, Idaho June 30th, 1885. Editor Deseret News:

Woolley Bros., rock store and merchandise were completely destroyed by fire this morning. The store was located on Washington Street, between Second and Third Streets. The total loss is estimated at \$2,000.

Business is quite brisk, considering the hot time.

The grand opening of the Asylum is looked forward to with much anticipation here in quiet Provo. The date of opening is, I understand, fixed for the 10th of July. The opening services of the new Theatre will take place the same date. The place selected is "The Streets of New York." Very ancient, isn't it? But we hope soon to see our home come into a more something more modern and more classical. Our principal comedian here would, with very little effort, appear better in tragedy than comedy, and we are proud of the ability held within the circle of our dramatic band, but we eagerly look for a higher, better class of plays than is often presented in this city.

The weather is extremely sultry. No preparations are being made for a celebration on the Fourth. It is hoped, however, we will have a roasting celebration of our Pioneer Day.

A rumor has reached here that Mr. B. Young may possibly bring his pupils down, and give us a grand concert in the Theatre. This would be a delightful treat, and Provo will prove, I venture to say, that she can appreciate and thoroughly enjoy an occasion to the utmost. We are a quiet people, but essentially a musical one, from our choir leader, down to the youngest child.

Fronts are said to be very plentiful in the river last night. It is hoped, however, we will have a roasting celebration of our Pioneer Day.

We were pleased to greet Dr. M. H. Hardy once more. He is a very valuable physician in him. A skilful physician, who is a staunch Latter-day Saint, is a real ally to the community.

Crops are looking very well. The ground, wet as it is, did his best after, yesterday the sun.
