3 asked; 3 asked;

a News representative today, the business interests of the big smelling company have become so extensive in the states named that it became al-most a necessity to have some repre-sentative of the executive committee here on the ground. It became too cumbersome for local managers to refer matters requiring executive sanc-tion, back to New York. The will be no change in the local management of the mines, mills and smelters in either of the states named; but Mr. Morse will be here so that any of the managers can keep in close touch with him. It is the policy of the executive committee to have representatives stationed at var-fous points about the country. For instance, Franklin Guierman is at Denver, another member will be out on the Pacific coast, another in Mexiat work. T. G. Wimmer and his son, R. S. Wimmer, were out from Salt Lake Thursday conferring with Supt. Strang regarding the Tetro mine. This well on the Pacific coast, another in Mexi-co, etc.

known Tintic property has been closed down since the former secretary of the company, Ernest Williams, "ducked" out and left things in bad shape, R. S. Wimmer, who was recently elected (Połłock's Special Wire.) San. Francisco, Jan. 18.—Today's quo-tations on Nevada stocks are as fol-S. Winner, who was recently elected a director in the company, will per-haps be chosen as secretaary of the Te-

haps be chosen as secretaary of the le-tro at the next meeting. It is learned reliably that this meeting will be held at an early date, possibly within a couple of weeks, and that an assess-ment will be levied for the purpose of paying off the indebtedness of the com-pany. Arrangements will also be made at this meeting for the reopening of the mine.

pany. Arrangements will also be made at this meeting for the reopening of the mine. The Three Metal Mining company is working its ground in the eastern part of the district under the direction of George Bray. A shaft is being sunk which has attained a depth of about 35 feet, and it is the intention to car-ry on this work throughout the winter. Fred H. Smith of the old American Mining company arrived this week from a trip to New York city and is again looking after affairs at the prop-erty. He states that the tunnel is in a distance of 150 feet. This distance in the tunnel gives the workings a depth of about 200 feet. With every round of holes fired the showing is more en-couraging to get the ore. It is stated and quite probable, too, that the Amer-ican will be developed through the new shaft is put down to greater depth. A drift can be run from the new Colo-rado shaft over into the American ground with little expense, as it would require perhaps 150 feet of drifting to accomplish this. Arrangements are being perfected to procure government patents upon two unpatented claims of the American company.

es upwards with only one or two excepadvance of 5%.

The market made progress upwards

New York, Jan. 15.—A tremendous flow of cash from the banks throughout the country to the New York City banks was indicated today by the bank state-ment, which showed an increase of \$26.-135.500 in the amount of cash held by the New York Clearing house institu-tions. This increase in cash is not thought to be a record one, but it is be-lieved to approach within a few mil-lions of the largest increase ever record-ed in a single week in this city. Financi-ers declared that it showed clearly that the interior banks were entirely reas-sured by the showing last week when for the first time since October, a sur-plus of reserve was established instead of the deficit which had long existed. In consequence the interior banks were sending their surplus cash to New York. In consequence the interior banks were sending their surplus cash to New York.

L. G. Burton, the mining engineer expects to leave shortly for the pro-perty of the Utah-Arizona Gold & Copper company, situated in the Weav-er mining district, Mohave county, Ariz, which was organized in this eity saveral months are with a number several months ago, with a number of well known Salt Lakers at the head. According to reports coming from reliable sources this corporation has come into possession of a very at-tractive propsition and has territory

now completed your company should quickly make up for lost time."

UTAHNS IN ARIZONA.

Engineer Burton Talks About Utah-

Arizona Property.

tractive propsition and has territory covering an area of 51 claims, or ap-proximately 1,040 acres. "The Weaver mining district," said Mr. Burton today, "has long been not-ed for its high grade gold ore, and we find mention of it in the report made by Gen. Wheeler in 1869. Most of the mining has been done by leas-ers or prospectors; and the ore ship-ped was high grade gold ore, mined from the surface, where no machinery was needed.

"But little attention has been paid to the milling ores in the past on ac-count of the scarcity of fuel and wa-ter; but now that oil can be obtain-ed so cheap for fuel, and water at a reasonable depth, the mill problem can be easily solved.

a reasonable depth, the mill problem can be easily solved. "An especially encouraging feature is that wherever work has been done, a strong mineral vein is disclosed; and it is surprising to note how few open-ings there are on the claims of the Ari-zona-Utah company which do not show values in gold and copper." It is the intention of the company. Mr. Burton states, to carry on a vig-orous campaign of development during the present year and as soon as the management can get around to it, to provide milling facilities. The nearest railroad point at the present time is Chloride, the present terminus of the Arizona & Utah railroad. Mr. Burton believes there are few copper properties in Arizona which siv greater oromise than the one ac-quired by the Arizona Utah syndicate, which he says, is situated upon the main mineral zone of Mohave county and which has all the features of a big mine.

CONDITIONS GETTING BETTER.

Montezuma Camp in Colorado Has Bright Future.

Bright Future. Montezuma, Colo., Jan. 18.—Not-withstanding the rigors of a Rocky mountain winter, miners and prospec-tors are busy all along the 30-mile belt of sulphide which traverses Summit county. The camp of Montezuma will be the scene of intense activity in the spring. Three large power companies are working in advance of their sur-veys on their terminal plants, and the erection of towers and poles will be rushed with all dispatch. Large sums are being spent for electrical supplies, and there is no question but many of the mines will be ready to use power the moment it is turned on.

TINTIC ORE SHIPMENTS.

The shipments from the mines of the Tintic district were the smallest in the past eight years, as follows: Tons Centinnail Eurekæ 18

Eureka Hill Tintic Iron

GOOD FOR BATTLE.

Battle, Wyo., Jan. 18.-It has been known for many years that rich de-posits of gold, silver, lead and copper posits of gold, silver, lead and copper were to be found in the Three Forks district, and many miners have de-plored the fact that transportation fa-cilities were lacking. Three railroads are now heading for the district, and building is in progress. These are the Moffat road, the Laramie & Hahn's Peak, and the Saratoga & Encamp-ment

GOLDFIELD MINING EXCHANGE

Special Correspondence. Special Correspondence. Geldfield, Nev., Jan. 15.—Goldfield's mining stock exchange shows for the second week of January a net advance in closing prices of 21.38 per cent over closing quotations for the last week of 1907. MEWS FROM PIOCHE.
Olitzens of Nevada Camp Have Become More Optimistic.
Special Correspondence.
Pioche, Nav., Jan. 16.—People of this camp are becoming more optimistic, some of the mines closed down during the last week of December are starting up again and employment is being fur-nished to many men who were idle two or three weeks ago. The Pioche prop-ertids of the Nevada-Ultah commitmer are still idle and probably will be until the result of the negotiations with the Ohlo Kentucky for a consolidation are Rabbit is in operation. The shaft at the Boston Pioche is to be sunk from

active quarters. Union Pacific active quarters. Union Pacific was carried up 2%. Atchison 1%, Amai-gamated Copper 1%, and Southern Pacific, New York Central, United States Steel preferred, Colorado Fuel and Anaconda 1. Bethlehem Steel sold at an advance of 17, Reading first preferred, Chicago, St. Paul, Minneap-olls & Omaha and American Sugar oils & Omaha and American Sugar preferred, 2, and United States Pipe preferred 2%.
