

ROOSEVELT'S ADVICE TO OMAHA

Would Have Its Press Publish Part
Of Strike Commission Report.

THREATENED WITH STRIKE

Any Man Who Tries to Excite Class
Hate, Sectional Hate, Hate of Creeds,
Is a Bad Element.

Omaha, Neb., April 27.—Ten thousand people were gathered at the Coliseum tonight to hear President Roosevelt. Great preparation had been made in this city for the president's coming and he was greeted by probably 50,000 people, who lined the streets on both sides for a mile and a half along the route of the carriage drive. Elaborate decorations of bunting and flags were hung from every building and from every flagstaff in the city "Old Glory" floated proudly. At the Union station the great west arch was festooned with bunting, which surrounded an immense painting of the president in the carriage. Another painting of the president in the carriage was placed on the national tri-colors, was framed over the carriage way through which the president's party passed. At the entrance to their train shed was a band of welcome.

The reception committee was composed of the board of governors of the Knights of Ak-Sar-Ben, together with Senators Millard and Dietrich, Gov. Mickey, Congressman Hitchcock, ex-Congressman Mercer, Mayor Moores and Gen. Manderson.

PRESIDENT'S ADDRESS.

The president devoted most of his speech to the question of good citizenship, and went over very thoroughly the ground he has heretofore covered on this subject. He also delivered a brief address on the life of Gen. U. S. Grant, today being the anniversary of his death.

Omaha is threatened with an industrial strike on May 1, and the president was asked to say something bearing on this subject. The following was delivered in response to this request: "I might give a word of advice to Omaha. I should like to see your daily press publish in full the concluding portions of the report of the anthracite coal commission, signed by all members thereof, by those in a special capacity the champions of the wage-worker and by those in a special capacity identified with capital, organized and unorganized, because men and women of Omaha, these people did not speak first as capitalists or as laborers, did not speak first as judges, as every man, as church men, but they spoke, all of them, unanimously signed that report, all of them as American citizens, anxious to see right and justice prevail. No one quality will get us out of any difficulty. We need more than one, we need many. Each quality is the complement of the other, the supplement of the other, and in point of business there is not the weight of the finger to choose between them. Look at the report signed by these men; look at it in the spirit in which I write it, and if you can only make yourselves, make the community, approach the problem of today in the spirit that these men, your fellows, showed in approaching the great problem of yesterday, any problem or problem will be solved."

"Any man who tries to excite class hate, sectional hate, hate of creeds, any kind of hatred in our community, though he may attempt to do so in the interest of the class he is representing, is in the long run with absolute certainty that class's worst enemy. In the long run we are going to go up or down together. Of course there will be exceptions, small local exceptions, exceptions in kind, exceptions in place, but as a whole if the commonwealth prospers, some measure of the prosperity comes to all of us. If it is not prosperity then the adversity, which it may be unequal upon us, will weigh more or less upon all. It lies upon ourselves to determine our own fates."

YARMOUTH-SHAW WEDDING.

The English Earl Weds the American Heiress.

Pittsburg, Pa., April 27.—Amid scenes as impressive as a lavish display of wealth, the dignity of society and the solemnity of the ritual of the Protestant Episcopal church could provide the marriage of George Francis Alexander Seymour, the Earl of Yarmouth, of England, and Miss Alice Thaw of Pittsburg, daughter of the late William Thaw, was solemnized this afternoon in the Calvary church.

The church was magnificently decorated for the occasion with palms, white hydrangeas, white lilies and other potted plants, and the audience, the most brilliant ever seen at a wedding in Pittsburg, the bride wore a magnificent gown of ivory satin, trimmed with Duchesse lace, made high-necked and with a court train. She wore the fine string of pearls that was her brother's wedding gift. The bridegroom wore the conventional frock coat and light trousers.

Joseph C. Thaw gave the bride away, and the Rev. Dr. W. L. McEwan, assisted by the Rev. Dr. John H. McEwan, was the officiating clergyman.

Pittsburg, Pa., April 27.—The Earl of Yarmouth, who was today wedded to Miss Alice Thaw, had a disagreeable experience at his hotel shortly after his return from the courthouse, where he had gone to procure his marriage license. When the earl entered the Hotel Schenley at about noon he was confronted by two constables, who served him with a writ from the high court of justice, King's

bench division, London, England, commanding the earl to cause an appearance to be entered for him within 40 days in an action at the suit of the Revolutionary and General Securities company, limited.

In the bill of particulars the plaintiff's claim is for principal and interest due from the defendant under a covenant of the defendant contained in an indenture or mortgage dated Sept. 8, 1902. The amount due under the covenant on Dec. 11, 1902, is \$200; interest at 20 per cent from date until March 25, 1903, \$17 is 24. The plaintiff also claims on \$200, at 20 per cent per annum until payment or judgment.

The earl apparently took the matter coolly and, at the conclusion of the reading, said: "That's all right; I'll attend to it."

UNIVERSITY CATALOGUE.

Changes in the Personnel of the Faculty—Other Matters.

The forthcoming state university catalogue announces a number of new names added to the roster of instructors. The new men in the mining school are Louis A. Parsons of Johns Hopkins university, Edgar B. Kay of Cornell university and William Blum from the University of Pennsylvania. Mr. Parsons was a graduate student at Johns Hopkins university and for two years, was a fellow in physics. Last year he was engaged there as laboratory assistant in physics. He comes here as assistant professor, and will help Professor J. F. Merrill in class room and laboratory work. Mr. Kay, now senior instructor in civil engineering at Cornell, comes upon recommendation of Professor R. R. Lyman, and will do most of Professor Lyman's work here next year. Mr. Blum received his C. E. at Rensselaer Polytechnic Institute at Troy, N. Y., in 1883, and for two years was instructor there in civil engineering. During 1897-98 he was employed in a similar capacity at Union college at Schenectady, N. Y., and from there he went to Cornell, where he has been for the last five years.

Mr. Blum, the new instructor in chemistry, replaces Mr. Laist, who has resigned. Mr. Blum was educated at the Central High school, Philadelphia and will receive his Ph. D. in chemistry this year from the University of Pennsylvania.

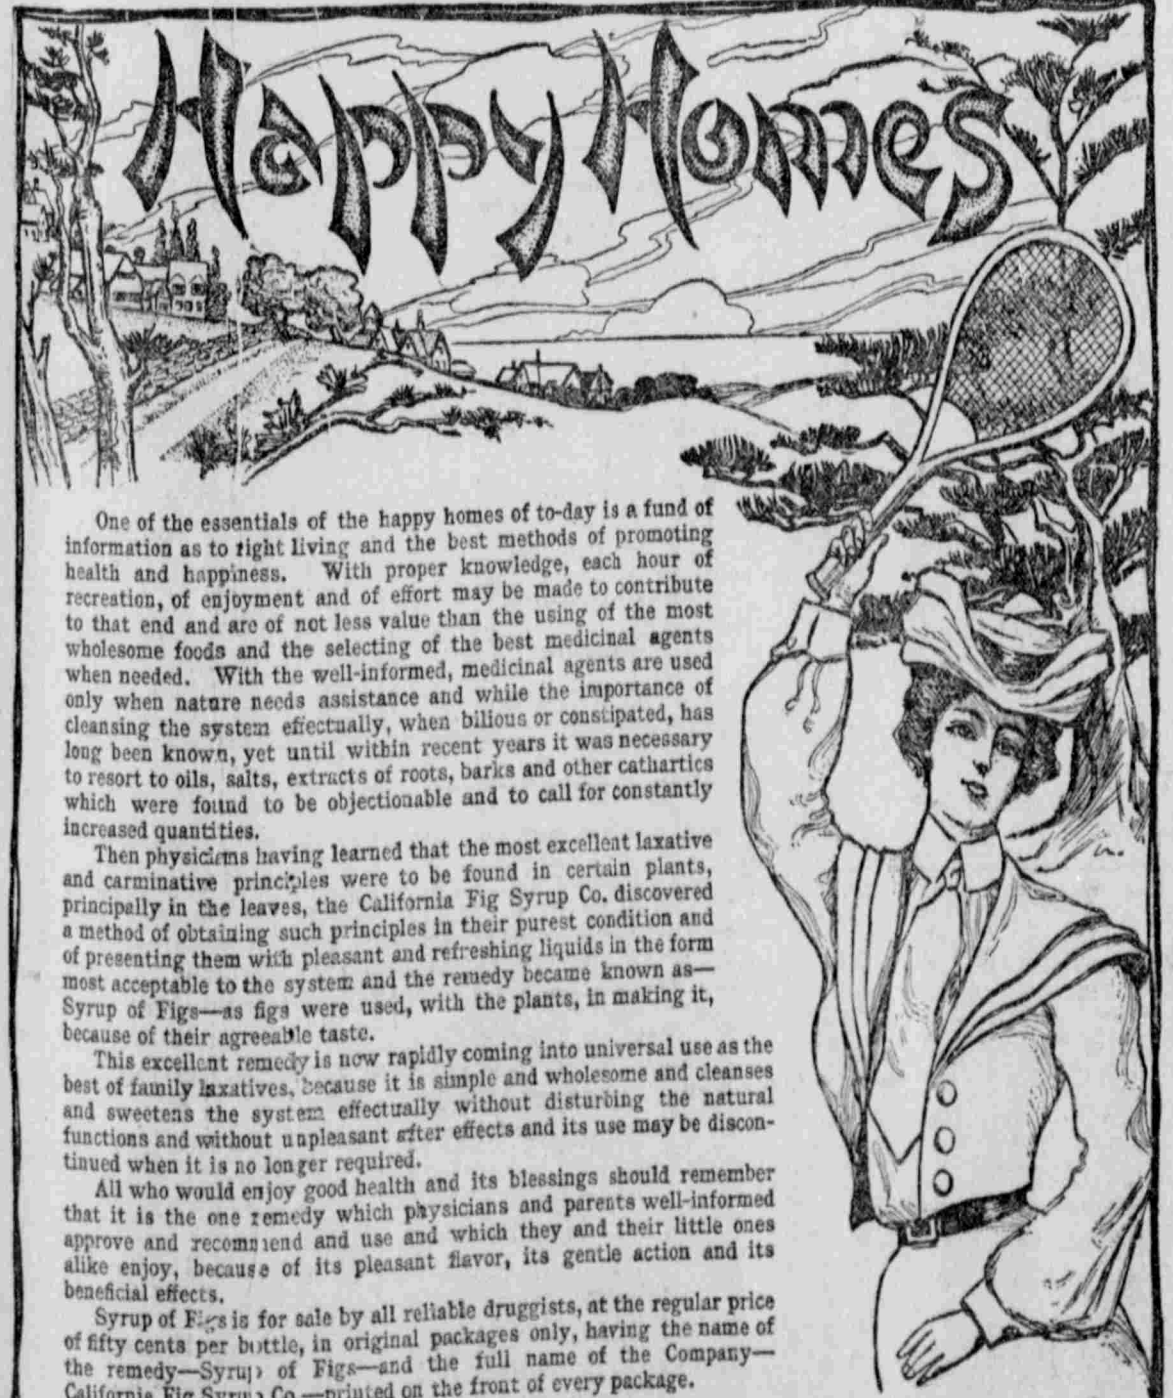

Frank R. Arnold, who taught French and German last year in the place of Mr. Arnoldson, on leave of absence, has now been engaged as instructor in ancient languages in place of R. L. McGhie, who goes east to study. Mr. Arnold will also teach French. He received his A. B. and A. M. at Bowdoin college, Maine, in 1893 and 1895, respectively. He was a student at the Sorbonne, Paris, in 1895; at the University of Bordeaux, France, in 1896, and at the University of Göttingen, Switzerland, in 1897. In 1898 he received his diploma de l'École Française, and has been engaged as instructor in French at the University of Chicago for the coming summer.

Will W. Ray has been engaged as instructor in economics and sociology to teach in place of Professor George Coray, who has leave of absence for further study. Mr. Ray was graduated from the University of Utah in 1902 with the degree of A. B., and during the last year has been engaged as instructor in history at the Salt Lake High school.

HAS DIPHTHERIA.
Superintendent of Schools at Home With It—Antitoxin Necessary.

It will probably be news to teachers and school patrons that Superintendent Christensen has been at home for several days under quarantine for diphtheria. For a time he was a pretty sick man and the use of anti-toxin was resorted to with the result that he was greatly relieved in the course of a few hours. Since that time his improvement has been rapid and he is now doing nicely. Mr. Christensen regrets exceedingly that his illness should have come at a time when his services were so much needed at the office and among the schools. However, he is directing much of the work from his home by means of the telephone and expects to be out again before very long.

ABSOLUTELY TRUE.
The worst enemy a man can have is a fool friend.—Chicago News.

One of the essentials of the happy homes of to-day is a fund of information as to right living and the best methods of promoting health and happiness. With proper knowledge, each hour of recreation, of enjoyment and of effort may be made to contribute to that end and are of not less value than the using of the most wholesome foods and the selecting of the best medicinal agents when needed. With the well-informed, medicinal agents are used only when nature needs assistance and while the importance of cleansing the system effectually, when bilious or constipated, has long been known, yet until within recent years it was necessary to resort to oils, salts, extracts of roots, barks and other cathartics which were found to be objectionable and to call for constantly increased quantities.

Then physicians having learned that the most excellent laxative and carminative principles were to be found in certain plants, principally in the leaves, the California Fig Syrup Co. discovered a method of obtaining such principles in their purest condition and of presenting them with pleasant and refreshing liquids in the form of a syrup. This remedy was known as—most acceptable to the system and the remedy became known as—Syrup of Figs—as figs were used, with the plants, in making it, because of their agreeable taste.

This excellent remedy is now rapidly coming into universal use as the best of family laxatives, because it is simple and wholesome and cleanses and sweetens the system effectually without disturbing the natural functions and without unpleasant after effects and its use may be discontinued when it is no longer required.

All who would enjoy good health and its blessings should remember that it is the one remedy which physicians and parents well-informed approve and recommend and use and which they and their little ones alike enjoy, because of its pleasant flavor, its gentle action and its beneficial effects.

Syrup of Figs is for sale by all reliable druggists, at the regular price of fifty cents per bottle, in original packages only, having the name of the remedy—Syrup of Figs—and the full name of the Company—California Fig Syrup Co.—printed on the front of every package.

DRUGGISTS

SOCIAL AND PERSONAL.

This afternoon Miss Creary gave a reception in honor of Capt. Hobson, the guests being the post people and the retired army officers. Miss Creary was entertained by Capt. Hobson during her stay in China.

The Knights Templar will give a grand ball and banquet at Christensen's tonight.

Mrs. Clifford Porsell will spend the next few weeks in Seattle.

Mrs. Thomas Kearns will give a tea on Saturday in honor of Miss Katherine Leonard.

Mrs. I. O. Rhoades has returned from her eastern trip.

Mr. and Mrs. Charles A. Walker entertained yesterday in honor of the Commercial club yesterday in honor of Capt. Hobson.

Mrs. H. A. Whitney will return tomorrow from California.

Mrs. F. C. Hayes announces the engagement of her daughter, Katherine L., to Mr. William F. Adams.

Mr. and Mrs. David Smith have returned from their southern trip.

Mr. and Mrs. J. T. Harris entertained at dinner last night in honor of Mr. and Mrs. Windsor Rice.

TALES OF CANADIAN FELINES.

Maxwell H. Graham, Esq., son of the late Gen. Sir Gerald Graham of the British army, relates a remarkable instance of the extreme cold of the Georgian Bay district of Canada, where in winter the thermometer frequently falls to thirty or forty degrees below zero.

Maxwell Graham, who owns the Lyndock Stock farms, arose early one morning last January to investigate a noise he had heard in the kitchen. To his surprise he saw the family cat standing stock still in the very attitude of springing upon a mouse, which faced the cat with a horrified expression. Both animals were frozen as hard as stone. The cat's tail was extended and the mouse's mouth slightly opened, as though it had uttered a cry of terror.

All of the North Canadian cats are without ears, the stranger inferring that it is customary to clip the ears, but in reality the tips of the feline ears, being thinly covered with hair, are frozen and peel off in their first winter. They have a wise, well-looked without ears, and when crouching the head between the shoulders on a dazzling field of snow look not unlike an aged woman muffled in a shawl. This may have been the origin of stories of witch women turning into cats when distressed.

While commenting on the sudden freezing to death of the Canadian cat, William Weightman, a respected citizen of Philadelphia, relates a similar incident told by one of his employees. The man was going to his chemical works early one cold morning, when he observed a cat running in front of a locomotive on the Reading railroad which passes the door. Presently the cat jumped off the track and stood perfectly still beside the fast-moving train. Surprised that the animal neither fell down from exhaustion nor hurried off, the workman examined it and found the cat frozen to death where it stood. Not five minutes could have elapsed since the cat's escape from the locomotive and the man's investigation, and yet the cat was frozen into the semblance of a statue. Mr. Weightman remarked that the author of this narrative was an Irishman, but as he subsequently gave a handsome gratuity to the "Cat Shelter," he was possibly impressed by the incident.—E. S. Bladen, in Lippincott's Magazine.

GAIN FLESH

An Absolute Necessity
in Many Cases.

A DECREASE IN WEIGHT
FREQUENTLY INDICATES
A DECLINE.

Our Modern Rebuilder, Vinol,
Will Help You Do It.

THE WAY IT ACTS ON A DE-
PLETED CONSTITUTION IS
SIMPLY MARVELOUS.

Are you getting thin? If you are you had better watch yourself. Take Vinol. It will build you up quickly and surely.

A healthy man does not vary much from year to year in his weight. This is as it should be. Vinol enables the organs of the body to renew flesh, muscle tissue, bone structure, and attends to purifying the great vital current of the human system, the blood. Vinol contains the active curative properties of Cod-Liver Oil in a highly concentrated state, and is the most wonderful tonic that we have ever had anything to do with.

Vinol acts upon the stomach in a beneficial way, enabling it to obtain for itself the necessary ingredients from the food that is taken into it to build up the healthy body and increase the weight.

Mr. H. M. Stufell, who is a well-known passenger trainman on the Boston and Maine Railroad, suffered as many railroad men do, with kidney and other troubles. He writes as follows:

"My kidneys troubled me a great deal, my bowels were very irregular. I had great distress in my stomach, suffered with bilious headaches, had no appetite, could not sleep nights, and was losing flesh rapidly. I began to take Vinol. I am now on my third bottle, and it is doing wonders for me. My kidneys are better, my bowels are again regular, my stomach no longer troubles me, and no more headaches, and as for appetite, don't speak of it; I sleep like a top and have gained thirteen pounds. You can count on me always to recommend Vinol as the king of medicines."

With many such testimonials as the above coming before us, it is not strange that we endorse Vinol as strongly as we do. We unhesitatingly agree to return to any one who has taken Vinol and is not satisfied that it has accomplished all that we claim for it every cent that they have paid us for this remedy.

HOW POLICE MAY GET SALARIES.

Resolution Adopted Which Apparently Paves Way to That End.

SPECIAL MEETING FRIDAY.

Live Stock Will Be Permitted to Pass Through Emigration Canyon Until a New Trail is Provided.

A plan was advanced at the council meeting last night by the anti-Sheets faction which, if carried through, will result in all the policemen getting their salaries for March and April without any further delay. City Auditor Reiser is responsible for the idea, which was submitted to the council, and in all probability the plan will be adopted at a special meeting to be held on Friday evening at 7:30 o'clock.

THE PLAN.

The resolution which explains the proposed plan was introduced by Eardley and was adopted by a unanimous vote. It is as follows:

"Resolved, That the city council meet in special session on Friday evening, May 1, 1903, at 7:30 o'clock, for the purpose of considering the claims of the police officers for their salaries for the months of March and April, 1903, that the city auditor notify each of said police officers to file with the auditor, not later than 5 o'clock p. m., May 1, 1903, his individual claim for services rendered, in such form as the auditor shall prescribe, and that the auditor submit all such claims to the city council at said special session."

The idea is to have the policemen file individual claims for their salaries for March and April and then the council will pass upon them and place them on the regular appropriation list for payment. The scheme will undoubtedly be carried through at the meeting Friday night, unless the anti-Sheets faction can bring about a postponement by reason of the supreme court handing down a decision in the Sheets case and settling the entire matter.

TRAIL FOR SHEEP.

President Cutrell introduced a resolution providing that Land and Water Commissioner MacKnight be instructed to permit the driving of sheep and other stock through Emigration canyon until such time as the council can amend its ordinance, prohibiting the driving of stock through the canyon, to comply with the statute on that subject passed by the last Legislature. The new law provides that the city shall furnish a trail for the passage of sheep and stock. The resolution of President Cutrell was passed by a unanimous vote.

ISOLATION HOSPITAL SITE.

Land and Water Commissioner MacKnight and Health Commissioner King recommended that the city purchase from the estate of John H. Hume, deceased, a tract of land for the location of the isolation hospital at a cost of \$600. The site selected is a mile west of the Jordan river and a half mile north of the White bridge. The matter was referred to the committee on finance and sanitary with the above named officials associated.

VINCILLI'S LICENSE REVOKED.

The council, by a unanimous vote, revoked the liquor license of Petio Vincilli for selling liquor on Sunday. The offense was committed on Sunday, March 15. Vincilli was present and was represented by Attorney D. S. Truman. After the reading of the charges by Assistant City Attorney Schuler, Mr. Truman made a statement in behalf of his client. He said that Vincilli had executed a bill of sale of the saloon on March 14, the day before the offense was committed, and was caught selling liquor by the officer, was not acting as Vincilli's agent, but was the sole owner of the saloon he having bought it from Vincilli the day before the affair complained of.

Mr. Truman stated that the revocation of the license standing in Vincilli's name would be an injustice to him and would go against him in case he should apply for a license in the future. Sergeant John Hennepel and two soldiers from Fort Douglas were sworn and told of the sale of the liquor.

Eardley moved that the license be revoked. Daveler said that he would vote in favor of the revocation, but he took occasion to roast the two soldiers who he said placed the United States army uniform by coming down town on Sunday and frequenting a saloon. Fernstrom objected to the arraignment of two members of the army by a member of the council; he thought it should not be allowed. A reply Daveler said, in a very sarcastic tone that he thought he was just about as loyal to the army as Fernstrom who was born in a foreign country. A vote was then taken on the revocation which resulted as given above.

SPRINGMAN LICENSE.

Fritz Springman, whose application for a renewal of his liquor license has been refused by the council, petitioned for a re-hearing of his case so that he might appear before the council and properly present his case. Springman's application for a license was turned down by the council because of a violation of the Sunday liquor ordinance. The petition for a re-hearing was referred to the finance committee, and the petitioner will be allowed to present his case to the committee.

SMOKE ORDINANCE PASSED.

The report of the committee on municipal affairs, recommending that the smoke nuisance ordinance be passed as originally presented, notwithstanding the mayor's veto, was not adopted. The vote being 9 to 4, lacking one vote of being enough to pass the ordinance over the veto. Later in the session the ordinance was submitted, with the amendment that it shall not apply to 10-horse power boilers used only for heating purposes, was passed by the council.

MISCELLANEOUS.

The sprinklers employed by the city again petitioned the council for an increase in wages from \$2.50 to \$3 per day. The communication not being signed by any persons, but merely "The Sprinklers," it was ruled out of order by the president upon motion of Sharp and was thrown out entirely.

The ordinance increasing the fire department by the addition of three men, was passed by the council by a unanimous vote.

By a unanimous vote the council granted the Consolidated Railway & Power company a franchise to construct a double track on First street from State to the east side of A street.

AUCTION SALE.

The last week of the auction sale of the McConahay Sharp Jewelry Co. stock at 41 W. Second street. Sales at 2:30 and 7:30 p. m. Greater bargains than ever. Come and buy the goods at your own price.

TO CLOSE OR NOT TO CLOSE

That is the Question Confronting
The City Schools.

OUTLOOK IS DISCOURAGING.

In Many Districts It Will Be Impossible to Raise the Required Means—Others Will Continue.

To close or not to close, that is the question with a great many of the schools of Salt Lake. In other words many of them are "up against it" and unless means are forthcoming for all such within the next 48 hours, the edict will issue that "this school will close May 1; cause, lack of funds." The schools that are at present hard pressed for means are the Emerson, Lincoln, Hamilton, Webster, Sumner, Lowell, Quirrh and Whittier. These schools, with several others, have committees hard at work endeavoring to raise the required funds, but in most cases reports to date have been very discouraging and the indications are that most of them will have to close. In some of the districts meetings will be held tonight, at which time the committees will report, showing what success they have met with in their efforts to raise the required sums. The Jackson school has decided to close as the money needed could not be raised, and it is feared that some of the others will do likewise.

Today there issued from the office of the board of education final notices asking that actual conditions be reported with, in the next day or two, as in the event that the schools cannot continue the blinds must be drawn on Friday afternoon next at the very latest.

WEBSTER WILL TRY AGAIN.

The patrons of the Webster held a meeting last night with George F. Goodwin chairman, and A. T. Moon secretary. The committees previously appointed reported that they had raised the sum of \$300, leaving \$700 still to be secured. It was the sense of the meeting that another effort be made to raise the balance, although many are doubtful of their ability to do this. Of the sum collected the teachers have pledged one week's salary, this amounting to \$317.50.

THE HAMILTON.

A meeting was also held at the Hamilton at which a statement of the funds necessary to carry on the work for four and five weeks, was made by Principal Barton. The statement showed that \$500 would be necessary to carry on the work for four weeks, and \$700 for five weeks. An additional \$100 was subscribed at the meeting, leaving \$400 to be raised if the school is kept open the full term.

At the close of Principal Barton's statement, a committee consisting of John Robinson, Willard Done, Mrs. George Olds, Mrs. T. W. Peard, Mrs. J. T. Smith, Mrs. E. H. Mortensen, Mrs. John Vetterlie, Mrs. A. H. Snow, Mrs. Frank Godde and Mrs. Walter Scholtes was appointed to take charge of the work of canvassing the district for contributions to the fund.

An adjourned meeting of those present last night will be held on Thursday evening, when the results of the canvass will be made known.

OUTLOOK FOR THE QUIRRH.

The patrons of the Quirrh held a meeting yesterday afternoon, with Joseph M. Cohen chairman, Mrs. Frank Kimball, secretary, and C. H. McCoy, treasurer. At the meeting \$257 was pledged by those present, and a committee was also appointed to solicit funds, one individual for each block, the committee to report the result of their canvass at a special meeting Wednesday afternoon at 3:30 o'clock. Members of the committee are especially anxious that all who desire to contribute have their donations ready at once, as it will be impossible to make a second call for collections.

JACKSON WILL CLOSE.

As stated above the patrons of the Jackson have abandoned all hope of keeping that school open. Over \$1,600 was needed and only one-third of this amount was raised. The outlook was so discouraging that yesterday Mrs. Emily J. Lewis, president of the parents' club in that district, sent the following to Principal Bradford, recommending that the scheme to keep the school open be abandoned:

"It is with regret that I have to say that I am thoroughly convinced, after doing some careful canvassing, that

SOZODONT

Pretty Teeth in a Good Mouth
are like jewels well set. Our best men and women have made Sozodont the Standard.

BEST FOR YOUR TEETH

We could not succeed in obtaining enough funds in our district to keep the Jackson school open, so we have decided not to call a mass meeting. I believe that all who are interested and able have given their word by signing the circulars sent out. Beyond that it would be hard to go, as some are opposed to the principle of the thing and so many cannot afford to pay."

OTHER SCHOOLS.

A well attended meeting was held at the Franklin school last night, and Mrs. Thompson, Mrs. Price, Mrs. Fisher, Mrs. Folger and Mr. Worrall were appointed a committee to raise funds. The teachers have agreed to work the full five weeks for four weeks' pay if that amount can be raised.
