BREVITIES.

Joe Gaylord, the negro minstrel, has inherited \$30,000 from a defunct Honolulu uncle.

The Texas State prison runs a cotton factory by convict labor, which pays all the expenses of the institution.

"Well, wife, you can't say I ever contracted bad habits?" "No, sir; you generally expand them."

"What is often called indolence," says Henry Grabb Robinson, "is in fact the unconscious consciousness of incapacity."

A prisoner was examined in court and contradicted himself. "Why do you lie so?" asked the judge. "Haven't you a lawyer?"

Public spirit is defined by the Boston Transcript as a "readiness to do anything which is likely to prove lucrative."

Lawrence, Kansas, projects a daily newspaper, and advertises for an editor whose venerable age will protect him from personal violence.

The Matrimonial News is a four cent weekly just started, in London, which is said to contain over two hundred announcements from candidates for marriage.

An Illinoisian, finding it would cost him \$100 to cure his jaundice, hung himself to save expense.

The effect of Bierstadt's "Yosemite," has been the erection, at the scene of the famous painting, of a hotel and the establishment of a watering place.

The Spectator speaks of a wealthy class in England "which is daily growing more careless of culture, more vulgar in its extravagance and vice."

Ward, the American filibuster, was believed by the Chinese to be the greatest general that had existed for two thousand years, and he is now worshipped as a deity.

Denmark has a "Maiden Assurance company," with which a father may deposit money which shall bear four per cent interest to his daughter during her minority, a higher rate after she is eighteen, and an increase at other periods of her life.

Boston is about to remove, from the belfry of the old "Cockery" church, in Hanover street, the first bell ever made in that city, being the one cast by Paul Revere, of revolutionary fame, and bearing date 1799.

Three brothers, Richard W., John B., and George T. Robinson, all residing in Elmira, New York, but in different parts of the city, were stricken with paralysis of the left side at about the same hour of the day.

Wm. J. McAlpine of Albany, well known for his eminent engineering abilities, has received a fitting testimonial of his merits in an election to the Austrian Society of Engineers, and is the recipient of a flattering letter in regard thereto, signed Emile Samson, Cassian and Openheim.

The New York Express says: "The types are compelled to make many awkward mistakes, but none more awkward than that which made us say that Olive Logan had 'married her uncle,' when we had written 'sprained her ankle.' Fortunately it did not get out before the public."

A dentist presented a bill for the tenth time to a rich skinflint. "It strikes me," said the latter, "that this is a pretty round bill." "Yes," replied the dentist, "I have sent it round often enough to make it appear so, and I have called now to have it squared."

Chicago theatre audiences are judged from a moral point of view by the number that go out between the acts to "see a man." On a recent occasion, at the principal theatre, the whole audience, except two men, went out to drink. On investigation it was found that, of these two, one was already drunk and the other had an unsettled account at the bar, and dare not go.

The last year that Davy Crockett was in Congress, a political jollification was held, professedly in honor of the birthday of Jefferson. Davy met several of the company going home from the festival, and thus he was drunk, of these two, one was already drunk and the other had an unsettled account at the bar, and dare not go.

Japan, writes Bishop Williams, is passing through the most remarkable revolution recorded in the history of any nation. But little more than a year ago, it was a most decidedly pronounced despotism; now it has a written constitution, modelled, in many important features, after the Constitution of the United States, and will soon be a constitutional monarchy.

Beware of that pride which makes a parade of being humble, and avoid all occasions of showing itself among men; feel itself as doing, and then with thou act as if self were quite put aside; speak not of thy sins; do not distinguish thyself by unusual plainness of dress or of manner, but seek to behave in that way which will attract the least notice from others; the test of thy sincerity will be the feelings of which thou bravest, not the taunts or scorn of others, but the neglect—the being entirely passed over by persons of whom thou thinkest with respect.

A good story is told of two Irishmen members of the famous old Sixty-ninth Regiment of New York, which distinguished itself so much in the late war. They were having a pretty jolly time, and after getting well warmed up, Patrick says:

"Jimmy we must give a toast to the old Sixty-ninth, the last to go into battle, and the first to leave."

"Ah, no, Jimmy, that is not good, that will never do. I will give one: Here is to the glorious old Sixty-ninth, equal to none."

By Telegraph.

CONGRESSIONAL.

SENATE.

Speculation in Whisky.

The conference report on the bill to amend an act for a right of way to ditch and canal owners over the public lands, was concurred in.

Scott offered an amendment providing for a new executive department, entitled the Department of Revenue, but finding that it would occasion a protracted discussion, withdrew it.

Cole moved to increase the tax on whisky to one dollar.

Thurman stated that he had heard that the Ring had bought up all the whisky in the country, with the expectation of making fortunes by the increase of the tax. The duty on oats was reduced to five cents per bushel.

NEW YORK.

A million dollars destroyed by fire.—Public baths opened.

New York.—At about 15.45 this morning a fire broke out in Dunshee's kindling wood factory, which spread so rapidly that at 1.39 a.m. nearly all that region embraced between the river and Eighth street, including the lumber yards of Doble & Melgar, Derby, Snow & Prentiss, and others, together with a planing mill, bell factory, machine shops, etc., on Green, Washington and other streets, were in a sheet of flame.

The entire fire department of Jersey city turned out, but the fire had got such headway and gained so rapidly on them that all their labors could not control it. One large tenement house and several small ones are destroyed. The fire is still spreading, and it is believed that the loss will not fall far short of a million dollars. The same district was burned over about three years ago. Immense quantities of lumber have been destroyed, and fears are entertained that the shipping may catch fire.

The public free baths were opened yesterday: the one on Hudson river, at the foot of the fourteenth street, was more full of mud than water and it will have to be removed; that one on East river, at the foot of Fifth street, was thronged all day, nearly 10,000 men and boys taking turns for a swim during the day. This morning the baths for the women will be ready.

KANSAS.

Good crops.—An immense range for cattle.—Railroad being hurried along.

Lawrence.—The reports of drought and grasshoppers in Kansas are untrue; there has been plenty of rain and no grasshoppers as yet. The crops throughout the State are growing well, wheat is generally harvested, a full average crop and of a quality that exceeds that of any previous year.

The grazing range near Abilene and Sedalia is covered with over 50,000 Texas cattle, which have arrived this season, and over that number are on their way up the Kansas and Pacific railroad, who have commenced moving these cattle east by fast stock trains.

Track laying is being vigorously pushed on above; the road is now laid thirty-five miles west of Kit Carson and the road will be completed to Denver by Sept. 1st.

MISSOURI.

St. Louis.—The examination of Wm. Ode, the conductor of the freight train that caused the terrible collision at Eureka, May 19th, terminated to-day; the court held the accused upon the charge of manslaughter in the fourth degree and fixed the bail at \$10,000.

TENNESSEE.

Memphis.—There is great excitement here over the steamboat race between the steamers Lee and Natchez; the former was a few minutes ahead at last accounts. The race is from New Orleans.

WASHINGTON.

The San Domingo treaty falling through. Revenue receipts and reduction of National Debt.

Washington.—It is said that the rejection of the San Domingo treaty does not dispose of the protocol for the release of Samana. The project for the annexation of Dominica by a joint resolution does not seem to be regarded with sufficient favor to secure a majority from either House.

The President has signed the act giving priority to certain revenue cases, to which a State is a party, in the Cortes of the United States.

The total receipts from internal revenue, for the fiscal year ending yesterday, are within a fraction of \$188,000,000. The total receipts from customs are estimated at \$170,000,000, and from public lands and all other sources, about \$69,000,000. This will make an income for the Government of nearly \$400,000,000.

The sinking fund, up to yesterday, inclusive, shows \$37,889,191.58; the special sinking fund, \$28,897,776.91, making a total of \$124,222,968.49 to be deducted from the national debt. The reduction of the debt for the past month will reach nearly fifteen millions.

ILLINOIS.

Hottest yet.—Distillery burned.—Crops improving.—Bad prospects in Illinois.—Charged with arson.—Anti-Chinese meeting a failure.—Protesting against Oliver.

Chicago.—To-day was the hottest day of the season. The thermometer at 5 p.m., was 98°. A bricklayer at work on the second story of a new building, was overcome with the heat, fell to the ground and was killed. There has been a severe thunder storm to-night, which has somewhat moderated the temperature.

he last English survivor of the naval engagement, between the American frigate Chesapeake and the British frigate Shannon, which occurred on the first of June, 1813. He died at Gloucester, near Gloucester, and was 85 years old.

A note from Secretary Flak, telegraphed to Motley, on the death of Earl Orendon, is published here this morning.

The suspension of the firm of John Bickeringill & Co., largely connected with the American trade, is announced to-day.

Str. Pakington, proposed that the reading of the Bible be a part of the daily exercises in common schools.

CANADA.

Best upset; three children drowned. Toronto.—Thomas Swingard, late general manager of the Great Western Railroad, was out in a boat on Burlington Bay, at Hamilton, on Monday last, with six children, when the boat capsized and three of the children, all girls, were drowned.
