

CAMP OF PIOCHE SHOWING THRIFT

Many New Buildings Going Up in Old District in Nevada.

PRINCE IS IN BETTER ORE.

High Values Found in Ledge on Surface at Demitjoh Mining Company Ground.

"Pioche has not looked as well in years as it does today," said E. L. Godie, mine manager for the Prince Consolidated Mining Company, on returning from Nevada silver camp this morning. "There are many new houses going up, new business places, and a large amount of money is being spent in developing the mines here."

"A short time ago a combination passenger train was run on the rail road from Caliente to Pioche. It has been necessary to replace this with a passenger car and even this is crowded both ways every day."

Mr. Godie and his brother, M. C. Godie, have been at the Prince mines for several days sampling the ore and looking into conditions. They declare that the Prince is improving on the 500 level and that the values of silver are increasing with depth.

From the 200 foot level down the company has been getting better ore and the management is well satisfied with the showing this is made.

One of the best things that has happened in the Demitjoh property in some time is the arrival of a big front end 125 feet on the mountain from the collar of the shaft. During a recent visit to the camp, Manager Owen A. Bailey brought back some sample of the ledge which outcrops about 4 feet above the ground. An assay of this rock showed \$5 in gold, 2.5 ounces in silver and 2.5 per cent lead.

Within 75 feet of the shaft another sample taken from the surface showed \$5.40 in gold and 3.9 ounces in silver.

A stringer of carbonate ore has been making in the drift on the 200 foot level of the property and an assay was also made of this. This is by far the richest ore that has been found there. Although it is very small at present it is believed that it will develop into a larger body. It showed \$1.60 in gold, 12.5 ounces in silver and 4.8 per cent lead.

The drift on the 200 level of the Demitjoh is being sent into the mountain to catch the vein that outcrops on the surface. On this level the work has advanced 95 feet in this direction and about 165 feet of drifting has been done.

The heavy storms of late have caused a delay in the mining work. It is now beginning to warm up slightly and it is expected that some great things will be done at the camp this summer.

MARKETS PICK UP SLIGHTLY.

Brokers Enjoy Fair Day of Trading on Local Mining Exchange.

Conditions on the local exchange picked up slightly this morning and stocks bid better for some securities. Tintics were knocked hard by the market and among those that registered hard drops were Colorado, Iron Blossom, Bunker and Mason Valley. For some time these stocks have been the star movers. By the insiders it is believed that this is the last action the stock will before more than two weeks time all things will be doing in the stock market.

For some time Colorado has been selling above \$2. Today it started to slump and for the first time in months dropped down to \$2.95. Iron Blossom was the weakest stock of the day. On the market it dropped to \$2.25, but managed to climb up to \$2.40 on the open board.

Columbus Consolidated was about the only stock that showed a decided inclination to get upon the upper levels and reached a new high mark of \$2.80 today. Bingham Amalgamated sold for 20¢ cents which is a new record. This stock has been toiled with much of late. Although the corporation has been given out for some time that the Ohio Copper company has been after this property, the story has been flatly denied by the Ohio Copper interests. It is understood that persons who have been close to the people behind the Ohio Copper company interests have been figuring on the control of this property, but that Ohio Copper company people were interested has been denied.

On the curb market only one sale was registered and that was when 2,000 shares of Copper Hill was transferred at 10 cents a share. Utah Treasure Hill received a bid of 23 cents and the stock was offered at 27 cents.

The number of shares of stock sold during the past week was 629,900 and the amount represented was \$41,299.93. The total number of shares sold today was 17,498 and the amount was \$3,304.62.

The Lloyd family announces they will be pleased to meet and see all the Lloyds or Stones in the city at the office of the Western Knitting Works, 22 Richfield street, on Monday, April 6th, at 8 p. m., to get acquainted and trace family connections. E. T. Lloyd, Secy.

SPECULATIVE ADVANCE STRONG

Has Resulted in Most Active and Vigorous Market Seen Thus Far This Year.

New York, April 3.—The speculative advance in prices which was sharing at the end of last week gathered force this week and resulted in this most vigorous advance and the most active market seen thus far this year. The stubborn resistance to depression shown by the market for some time past inhibited the speculative sentiment, with a conviction that the bottom of the business depression had been reached in stocks. The settlement of the Balkans question and the completion of the April settlements released large resources to foreign markets for securities to this market, growing confidence in the condition of winter wheat and signs of some revival of cash money brought the movement.

Chasing prices of stocks at the opening today were generally small with declines. The majority of the dealings were quite active. Declines ran to a maximum of 10 points in the American and Cooper American Smelting, Reading and Denver & Rio Grande, Canadian Pacific rose 5.

Buyers began to recover stocks and sellers accordingly advanced. The Transcontinental and Local Transportation groups were the features of strength, but the list in general showed a good tone and no real decline. Business was fairly large on the advance.

Canadian Pacific gained 1%, Northern Pacific 1% and Union Pacific 1%. Chesapeake & Ohio and Utah Central 1%. Losers were noted of 1 to 1½% in Pacific Coast, Long Island, Aspinwall and Corn Products.

The market closed strong at ten o'clock.

After a short half the rise was resumed and gains were extended in all directions on a list and well distributed dealing. The value of other important stocks was numerous among the active trading stocks. Wells-Fargo sold at an advance of 10.

LIVESTOCK.

CHICAGO.

Chicago, April 2.—Cattle—Receipts estimated at 300; market steady. Beefs, 150@7.50; Texas steers, 4.40@5.50; western steers, 4.00@5.00; stockers and feeders, 2.75@3.50; cows and heifers, 8.00@8.50; calves, 8.00@8.50.
