ARE RECONCILED NOW. Miss Estella Fieldsted Has Been For-

given by Her Father.

Miss Estella Fjeldsted, daughter of C. D. Fjeldsted, of Logan, Utah, who surprised her family and friends last week by eloping with Richard H. Cate, a young man of the same town, and who aroused the ire of her father by that act, can now relate the same story that young women with like experience, usually relate-that she has been iorgiven and may now return to the family home in the full knowledge that she will again be received into its fold with

open arms. It will be remembered that Mr. Fjeldted opposed the union of his daughter with Mr. Cate and that the young cou-ble quietly took the train for Ogden, where a matriage license was procured and the nuptial knot field by an accomremembrance in which her memory was held was fully testified to by the great throng which attended the services, and by the bewildering profusion of floral offerings which wars sant to the home offerings which were sent to the home or a new home for her. In the meanne Estella, now Mrs. Cate, came to It Lake to live with friends. Immediately after the marriage she wrote to her father telling him of what she had done and imploring his forgiveness. Mr. Fjeldstead read the letter and settled down to a philosophical consideration of the case with the result that he freely granted his erring child's request and told her that she was welcome to return, and that she would find her home the same pleasant place it was before the incident just related had been added to the store of family experience.

Says Mobocracy Must Cease-Up to the Present the Strike Shows, Killed 3, Wounded 16, Injured 31.

St. Louis, Mo., May 24 .- This is the 17th day of the strike inaugurated by the employes of the St. Louis Transit company, and neither side to the controversy seems willing to advance any proposition to end it. Non-union men continue to come in from other cities, and the transit company puts them to work. No general sympathetic strikes among labor unions have been called, but trades and labor organizations are showing their sympathy with the strikers by contributing to their support and passing rules fining members for riding on the street cars.

At a mass meeting last night a reso-lution was passed to the effect that all union labor throughout the United States be asked to instruct their repre-States be asked to instruct their repre-sentatives to oppose the passage, of the World's Fair appropriation bill unless the St. Louis Transit company settles the strike satisfactorily to its former employes. The resolution has been wired to Speaker Henderson, of the House of Representatives. Just before a conference held by Gov. The first step would naturally be to call on the sheriff for assistance: the second to call on the military of the State.
