HOW IT WORKS. Now, when the visitor ascends the stairs and bumps up against the door half way up a buzzer buzzes and at the buzz of the buzzer a lookout in the "club" rooms peeks through a small hole in the door and gets a line on the mirror at the head of the stairs and said line and said mirror throws a re-flection of the stairs, ground floor and sidewalk in front of the saloon. The lookout therefore knows who is coming. Whether the visitor is a club member in good standing, a "butter in" or a "flycop." This is what happened Saturday night to Dick Shannon and his assistants. He said we were to pay our own expenses, to put up \$200 with him to pay expenses of sureying and platting the land, and then we were to go to a place he designated, file our claims, and we would then receive \$10,000 f each claim we could turn over to purchaser who would then appear.

I believe that the land is supposed to be in Oregon or Washington. The official transaction is one in which the tipster acts as no man's agent, the entryman pays only for a "tip" and has vague and irresponsible information that a buyer will come along whenever the ti-tle of the entryman is legalized.
